

Equivalent Fractions (Easy)

Name: _____

Date: _____

1.) Find the missing numerator:

$$\frac{1}{3} = \frac{?}{15} \quad \text{Answer: } \underline{\hspace{2cm}}$$

2.) Find the missing numerator:

$$\frac{1}{2} = \frac{?}{4} \quad \text{Answer: } \underline{\hspace{2cm}}$$

3.) Find the missing numerator:

$$\frac{1}{2} = \frac{?}{8} \quad \text{Answer: } \underline{\hspace{2cm}}$$

4.) Find the missing numerator:

$$\frac{2}{3} = \frac{?}{12} \quad \text{Answer: } \underline{\hspace{2cm}}$$

5.) Find the missing numerator:

$$\frac{1}{6} = \frac{?}{12} \quad \text{Answer: } \underline{\hspace{2cm}}$$

6.) Find the missing numerator:

$$\frac{3}{5} = \frac{?}{25} \quad \text{Answer: } \underline{\hspace{2cm}}$$

7.) Find the missing numerator:

$$\frac{3}{5} = \frac{?}{20} \quad \text{Answer: } \underline{\hspace{2cm}}$$

8.) Find the missing numerator:

$$\frac{3}{4} = \frac{?}{12} \quad \text{Answer: } \underline{\hspace{2cm}}$$

9.) Find the missing numerator:

$$\frac{1}{6} = \frac{?}{24} \quad \text{Answer: } \underline{\hspace{2cm}}$$

10.) Find the missing numerator:

$$\frac{1}{2} = \frac{?}{6} \quad \text{Answer: } \underline{\hspace{2cm}}$$

11.) Find the missing numerator:

$$\frac{1}{3} = \frac{?}{9} \quad \text{Answer: } \underline{\hspace{2cm}}$$

12.) Find the missing numerator:

$$\frac{5}{6} = \frac{?}{24} \quad \text{Answer: } \underline{\hspace{2cm}}$$

13.) Find the missing numerator:

$$\frac{1}{6} = \frac{?}{30} \quad \text{Answer: } \underline{\hspace{2cm}}$$

14.) Find the missing numerator:

$$\frac{2}{3} = \frac{?}{15} \quad \text{Answer: } \underline{\hspace{2cm}}$$

15.) Find the missing numerator:

$$\frac{4}{5} = \frac{?}{10} \quad \text{Answer: } \underline{\hspace{2cm}}$$

16.) Find the missing numerator:

$$\frac{1}{2} = \frac{?}{10} \quad \text{Answer: } \underline{\hspace{2cm}}$$

Equivalent Fractions (Easy)

17.) Find the missing numerator:
 $\frac{2}{5} = \frac{?}{15}$ Answer: _____

18.) Find the missing numerator:
 $\frac{2}{3} = \frac{?}{6}$ Answer: _____

19.) Find the missing numerator:
 $\frac{3}{4} = \frac{?}{16}$ Answer: _____

20.) Find the missing numerator:
 $\frac{5}{6} = \frac{?}{18}$ Answer: _____

21.) Find the missing numerator:
 $\frac{5}{6} = \frac{?}{12}$ Answer: _____

22.) Find the missing numerator:
 $\frac{4}{5} = \frac{?}{25}$ Answer: _____

23.) Find the missing numerator:
 $\frac{3}{4} = \frac{?}{20}$ Answer: _____

24.) Find the missing numerator:
 $\frac{1}{3} = \frac{?}{12}$ Answer: _____

25.) Find the missing numerator:
 $\frac{1}{4} = \frac{?}{12}$ Answer: _____
