

Greatest Common Factor (GCF)

Name: _____

Date: _____

1.) What is the GCF of 60 and 48 = _____

2.) What is the GCF of 50 and 40 = _____

3.) What is the GCF of 54 and 24 = _____

4.) What is the GCF of 21 and 54 = _____

5.) What is the GCF of 60 and 54 = _____

6.) What is the GCF of 42 and 54 = _____

7.) What is the GCF of 45 and 39 = _____

8.) What is the GCF of 12 and 40 = _____

9.) What is the GCF of 12 and 8 = _____

10.) What is the GCF of 22 and 26 = _____

11.) What is the GCF of 60 and 24 = _____

12.) What is the GCF of 8 and 20 = _____

13.) What is the GCF of 24 and 39 = _____

14.) What is the GCF of 57 and 18 = _____

15.) What is the GCF of 42 and 35 = _____

16.) What is the GCF of 50 and 30 = _____

17.) What is the GCF of 49 and 35 = _____

18.) What is the GCF of 40 and 24 = _____

19.) What is the GCF of 40 and 50 = _____

20.) What is the GCF of 36 and 46 = _____

Greatest Common Factor (GCF)

21.) What is the GCF of 44 and 42 = _____

22.) What is the GCF of 48 and 36 = _____

23.) What is the GCF of 45 and 18 = _____

24.) What is the GCF of 40 and 30 = _____

25.) What is the GCF of 12 and 56 = _____
